### **Draftsman / Logistics Junior Engineer**

TGN Consulting are seeking a technically minded person to fulfil the following functions –

1. ACAD drawings as per Senior Engineers advice, being
  - a. Architectural layout drawings
  - b. General Arrangement drawings
  - c. 3 D visual display drawings
2. A good knowledge of ACAD is essential.
3. Assist in Purchasing of general engineering type equipment
4. Placement of orders for engineering type equipment
5. Expediting orders
6. Assistance in organising logistical functions such as
  - a. Sending equipment and goods to neighbouring Africa countries in particular Angola
  - b. Completing all documentation as required (training will be given)
7. When required travelling domestically or internationally to assist in inspecting or receiving goods dispatched. Travel will be minimal but may be required from time to time.
8. Being responsible to ensure that all documentation for quotes, orders and dispatches is correctly filed and processed.

We are seeking a dynamic person able to make informed decisions, preferably with a tertiary education such as received from a higher institution such as a technical college, or university. Our offices are located in Knysna and hence we would require the person to reside in Knysna permanently.

The majority of TGN Business is within the following areas –

- Engineering Consulting / Project management
- Construction
  - Prefabricated buildings
  - Standard structure buildings
  - Pipelines
- General export of Engineering Products

Applications should be addressed to –

The General Manager  
Mr Stephen Holton  
TGN Consulting cc
